THE WATSON FIASCO.

Had the deposed Wickersham and his local luminaries been actuated by even a partial desire to protect the Roman Catholic church, the ignomialous break-down at Augusta of the procedure against Thomas E. Watson would draw different comment. But it appeared from the first that the motive of the department and its faithful\_echoes rose not at all in outraged resentment against Watson, but allogether in sheer and malicious prostitution of power to inflict vicious personal persecution, such as characterized almost the entire length of the Wickensham regime. With Mr. Watson's attack upon organized religion The Constitution has sather sympathy nor patience. ## THE WOMAN ON THE FARM.

THE WOMAN ON THE FARM.

Secretary of American controls new forther than the secretary of American controls new for the free that investigating board, but that addedned solver maners where he seem to being the farmers where of America. The secretary is right when he classifies the farmers where he can be a seem to be a seem to be a seed in the farmer of the sake for suggestions from them as to the manner in which the department may be described in improving their lot and in halping them to meet their manntol denties. We have had pleinty of talk of and sympathy for the downstrodden farmer, the farmer, and who is cheated of a fair-phase for who suffers from deskenting immension, and who is cheated of a fair-phase of the whole of the strength o

refuge of politics in fiself is for him an escape from the treadmill.

The wife's routine is different and institutely less entireding. The grind is unbroken from Saturday to Saturday, except for the occasional neighborhood social or, the weakly prayer meeting. On the social results of the day, most of her time is still demanded for household affairs. The business of living is, with her, a stern and unremitting one.

While the later years have been kinder to the farm and its inhabitants, breaking the isolation of all, it has brought less relief to the housewife perhaps than any of the others. This is not meant to chanf an unreleved miserere about the woman on the farm, but on ay in plain justice, that she is

farm, but to say in plain justice, that she is
entitled to say great a share of pleasure and

others back there who are simont wholly.

The result of Secretary Houston's poll of
the farm wives of the country will make interesting and, we believe, profitable reading,

## CAN SULZER COME BACK?

CAIN SULLER UME BACK?
William Suler's reentrance into politics
is more an illustration of the spectacular
character of public life in this country than
it is significant politically.
It is quite possible Suler will be elected
to the assembly. It is even possible that

make him presiding officer of the lower body.

After that what? A dead center, politically speaking. The impeached governor can hardly regain the commanding presides he once enjoyed. This is said in no spirit of antagonism to Suizer or of indorsement of Tammany, but as dealing with facts as they appear. Had Tammany displaced a man of powerful character and stable mind, as it displaced Suizer, the traditional political content of the county over, to give him almost anything for which he asked. The alight texture of Suizer's personal appeal bardly argues any degree of political exaliation for him.

He can, and probably will, make trouble for Murphy. But it is doubtful if he can retrieve his fortunes to an appreciable extent once the novelty of the situation has become commonplace.

During his fight for office Hobson has had to call off all his wars with Japan.

## Gifts With Dignity

We rest not all our prestige in Silver on our massive pieces, distinguished as they are.

The same insistence on quality goes with the smaller pieces and sets, and good material, good workmanship and good taste make them things of enduring value and beauty.

They call for no great outlay, but they are gifts of real dignity.

Warner's Rust-Proof Corsets

NOTE

That when we announce a new Warner style it means corset fashion is established.

That it means you can buy the latest Parisian design at our counter, cut and made in this country to suit the American woman's figure — as early as the Parisian woman can buy hers.

When a Warner corset ap-pears it is a standardized style—when fitted it fashionably shapes the figure
—when worn it is comfortable. When you discard a Warner you dis it because you want an-other Warner—a fresh corset or a new Warner style. It has held its shape. It is as comfortable as the day you first put it on. This is the Warner story endorsed by
